RECALL

Affiliated Foods has been notified of a Recall on **certain** whole raw onions (red, yellow, and white) that were shipped to the United States from Chihuahua, Mexico, between July 1, 2021, and August 31, 2021.

This recall has been initiated because it has the **potential** to be contaminated with Salmonella, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

Affiliated Foods shipped this product from 07/01/2021 thru 09/4/2021.

Immediately remove the affected product from your shelf and return to Reclamation Center for credit.

ITEM #	PK	DESCRIPTION
